ABOUT US

Gizmos Technology W.L.L is a leading IT, OT and ELV system integrator that specializes in providing innovative and reliable technology solutions to businesses and individuals. Our team of skilled professionals is passionate about creating cutting-edge solutions, as well as providing cloud computing and cyber security services.

We are committed to providing our clients with the highest quality of service, and we work closely with them to understand their unique needs and requirements. Our goal is to exceed our clients' expectations by delivering efficient and effective technology solutions that help them achieve their business objectives.

MISSION

- ▶ Our mission is to provide innovative and reliable technology solutions that help businesses and individuals achieve their objectives. We are dedicated to delivering exceptional customer service, building long-term relationships with our clients, and staying up to date with the latest technology trends and innovations.

VALUES

- ▶ Customer Focus
- ▶ Innovation
- ▶ Teamwork
- ▶ Ethics

STRENGTHS

- ▶ Experienced Team
- ▶ Quality Service
- ▶ Flexibility
- ▶ Focus on Results

VISION

- ▶ Our vision is to become a leading provider of technology solutions that empower businesses and individuals to achieve their full potential. We strive to create a dynamic and inclusive work environment that fosters creativity, collaboration, and innovation. We are committed to making a positive impact on society by using technology to solve complex problems and improve people's lives.

QHSE POLICY

At Gizmos Technology W.L.L, we are committed to delivering high-quality services to our clients while ensuring the health and safety of our employees, contractors, and the environment. We believe that Quality, Health, Safety, and Environment (QHSE) are essential components of our business, and we strive to integrate them into all aspects of our operations.

To achieve this commitment, we will:

Quality

- ▶ Continuously improve our services to meet or exceed our clients' expectations and industry standards.
- ▶ Monitor and measure our performance against established quality objectives and take corrective actions where necessary.
- ▶ Regularly review our processes to identify areas for improvement and implement best practices.

Health & Safety

- ▶ Provide a safe and healthy work environment for our employees, contractors, and visitors, and comply with applicable health and safety regulations.
- ▶ Train our employees and contractors on safe work practices and provide the necessary resources to ensure their well-being.
- ▶ Investigate all incidents and near-misses, identify their root causes, and implement corrective actions to prevent their recurrence.

Environment

- ▶ Comply with all applicable environmental regulations and standards and minimize the impact of our operations on the environment.
- ▶ Identify and evaluate environmental risks associated with our activities and implement controls to manage these risks.
- ▶ Continuously monitor and measure our environmental performance and implement initiatives to reduce our carbon footprint

We are committed to ensuring that all our employees, contractors, and stakeholders are aware of and understand our QHSE policy, and we will regularly communicate this policy to them. We will also review this policy periodically to ensure that it remains relevant and effective.

SOLUTIONS TAILORED TO YOUR INDUSTRY:

EMBEDDED COMPUTING

▶ EMBEDDED PCS

Advantech Embedded PCs (EPC) are a full range enclosures systems designed for Mini-ITX motherboards and 3.5" single board computers, featuring optimized mechanical design and flexible I/O interface options, assuring maximized flexibility for design in efficiency.

▶ INDUSTRIAL WIRELESS SOLUTIONS

Advantech's Industrial Wireless (AIW) solutions provide market leading Wi-Fi 5/6/6E/7, 4G LTE, 5G NR, GPS/GNSS, and Bluetooth 5.2 technology.

INDUSTRIAL AUTOMATION & I/O

▶ GATEWAYS & REMOTE TERMINAL

Linux-based Gateways and RTUs offer edge communication for remote maintenance, acquiring data and transmitting to higher-level management systems

▶ HUMAN MACHINE INTERFACES

Advantech HMI series contains high-performance Touch Panel PCs, low-power industrial thin clients, and web terminals for smart factory applications.

▶ PANEL PC

Advantech's panel PCs are RISC-based PPC, industrial all-in-one, and high computing configurable PPC for various industrial applications.

INTELLIGENT CONNECTIVITY

▶ INDUSTRIAL ETHERNET SWITCHES

Advantech's industrial Ethernet switch solutions provide an abundance of options, including Gigabit Ethernet switches.

▶ INDUSTRIAL MEDIA CONVERTERS

Advantech's industrial media converters ensure that Ethernet data is converted to fiber optic signals reliably, even in harsh environments..

INTELLIGENT HEALTHCARE

▶ MEDICAL COMPUTERS

Advantech's Medical Computer is a scalable medical PC with UL60601-1, EN60601-1, and IEC60601-1 certifications.

▶ MEDICAL MONITORS

Advantech develops three types of medical monitors (PAX Series), including surgical, diagnostic, and clinical monitors.

ePROMIS[®]

FUTUREGEN ENTERPRISE

World's #1 AI-Powered SaaS ERP

MOBILITY WITH FLEXIBILITY

Give your business greater mobility and provide support on the move with ePROMIS Cloud Based ERP Software. Get access to data instantly and deploy ePROMIS based on your organization's needs.

BUSINESS INTELLIGENCE

ePROMIS offers you powerful insights that give direction with the help of a unified, comprehensive, business intelligence platform. Accurate forecasts, reports, interactive dashboards and intelligence analytics help you foresee results and keep you abreast of the latest market trends.

RESOURCE PLANNING & SCHEDULING

Plan and schedule your resources with dexterity using ePROMIS Integrated Database and ePROMIS Project Management Software. Reduce wastage, minimize operating costs, order according to demand forecasts, and schedule your purchases automatically using the latest innovations.

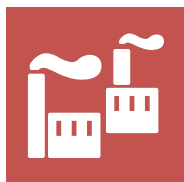

ASSETS MANAGEMENT

Manage how your assets are acquired and utilized from a simple unified interface. See how each asset is performing, know their real-time location, deploy them skillfully, and ensure optimal output every time.

ENHANCED SECURITY

ePROMIS ensures greater safety of organizational records while providing better and instant access. Enjoy device-independent data access based on organizational roles and remain protected at all times.

CUSTOMER RELATIONSHIP MANAGEMENT

Serve customers with greater ease and provide support with quick access to information with our integrated CRM solution. Communicate efficiently through multiple channels to delight consumers and improve brand loyalty.

ALL-IN-ONE GLOBAL BUSINESS MANAGEMENT SOLUTION

ePROMIS delivers a Futuristic, Secure, Integrated, Scalable and Customizable platform that effortlessly handles multiple companies, entities, currencies, regulations, and reporting needs for various multinational conglomerates for a variety of business domains.

ePROMIS Cloud ERP offers a suite of applications to manage your organization's key processes, including:

- ▶ Finance & Accounting
- ▶ Human Resources and Capital Management
- ▶ Customer Relationship Management
- ▶ Sales Management
- ▶ Procurement Management
- ▶ Inventory & Warehouse Management
- ▶ Asset Management
- ▶ Project Management
- ▶ Supply Chain Management
- ▶ Facilities Management
- ▶ Property Management
- ▶ Service Management
- ▶ Production Management
- ▶ Transformation & Logistics Management
- ▶ Performance Management, etc.

CYBER SECURITY

Cybersecurity is essential for businesses, organizations, and individuals to protect against cyber threats and safeguard sensitive information. Cybersecurity also involves staying up to date on the latest cyber threats and implementing proactive measures to prevent cyber attacks before they occur.

NETWORK SECURITY

Solutions include data and access controls such as Data Loss Prevention (DLP), IAM (Identity Access Management), NAC (Network Access Control), and NGFW (Next-Generation Firewall) application controls to enforce safe web use policies.

CLOUD SECURITY

Cloud security strategy includes cyber security solutions, controls, policies, and services that help to protect an organization's entire cloud deployment (applications, data, infrastructure, etc.) against attack.

ENDPOINT SECURITY

With endpoint security, companies can secure end-user devices such as desktops and laptops with data and network security controls, advanced threat prevention such as anti-phishing and anti-ransomware, and technologies that provide forensics such as endpoint detection and response (EDR) solutions.

IOT SECURITY

IoT security protects these devices with discovery and classification of the connected devices, auto-segmentation to control network activities, and using IPS as a virtual patch to prevent exploits against vulnerable IoT devices.

APPLICATION SECURITY

Application security prevents bot attacks and stops any malicious interaction with applications and APIs. With continuous learning, apps will remain protected even as DevOps releases new content.

ZERO TRUST

As corporate assets move off-premises as part of cloud adoption and remote work, a new approach to security is needed. Zero trust takes a more granular approach to security, protecting individual resources through a combination of micro-segmentation, monitoring, and enforcement of role-based access controls.
